

## FEATURES

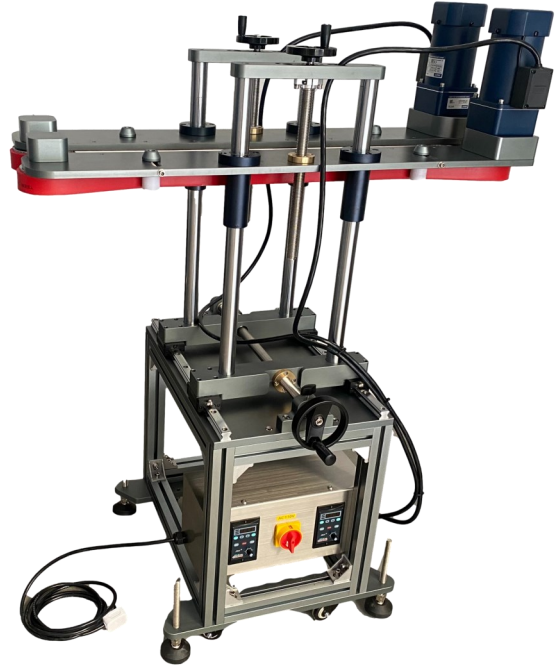

The **mDUO** Bottomless Conveyor will support various duties on your Packaging Line. This Side Belt Conveyor is Bottomless and an excellent choice when you need to set-up a Bottom Coding Conveyor for CIJ or TIJ Inkjet Printing and date and lot coding on Container Bottoms or when you require a Side Belt Transfer Conveyor in your plant.

- **Two Motors** - mDUO is outfitted with twin/dual electric motors.
- **Quality** - Quality Components and Construction.
- **Two Digitals** - Two Speed Controllers, for synched movement or tuned to rotate containers.
- **Metals** - 304 Stainless Steel and Aluminum
- **Hand Crank** - Easy smooth adjustment for bottle diameters and container widths.
- **Height** - Adjustable Height, 27.50" up to 42.75", from floor to belt.
- **OPTIONS** - iJet Inkjet Code Printer & InFeed Chute for manual feeding of products.
