

MIL STD 129 - Department of Defense

Military Stencils Marking for Shipment and Storage

The Mil-Std-129 is a standard developed for Department of Defense and this directive provides for coding and markings to be stenciled directly onto Military Crates or a Military Box....Any Item Needing Identification.

Now the EBS Handjet Portable Printer provides the DoD a reliable alternative, to perform Military Marking for Shipment and Storage. Discover this new Stencil Machine technology....Printing on Virtually Anything.
